

# DESCRIPTIVE TREE CHART

## AUTUMN 2017

European Plum Mont Royal

**Height: 5m | Width: 4m**

Deciduous with green leaves, white flowers and blue fruits with yellow flesh. Self-fertile.

Thornless Common Honey-Locust

**Height: 18m | Width: 16m**

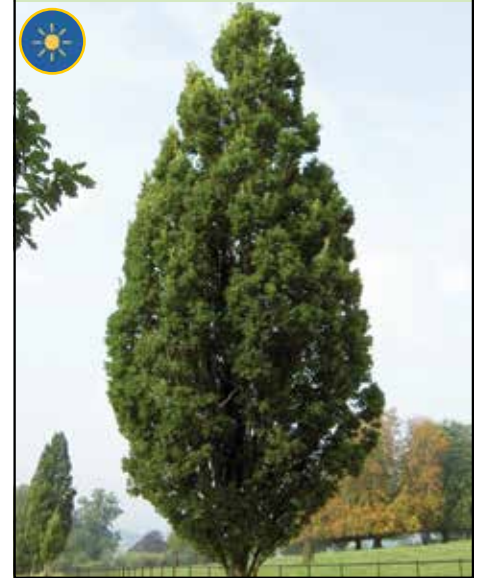

Leguminous specie, broad crown, thornless, pods of 30-45 cm long persistent part of the winter. Hardy, tolerates urban conditions.

Fastigate English Oak

**Height: 15m | Width: 5m**

Deciduous with columnar and narrow shape; Cracked trunk; Branches near the trunk; acorns from 2 to 5 cm; Brown leaves in autumn.

Eastern Cottonwood "Siouxland"

**Height: 16m | Width: 9m**

Very rapid growth deciduous, pyramidal shape, grows under the most diverse and even unfavorable conditions; Foliage yellow golden in autumn. Male selection: NO "cotton".

Autumn Blaze Maple

**Height: 17m | Width: 13m**

Fast-growing deciduous, ovoid shape, broad and dense, red to orange-red autumn color.

Balsam Fir

**Height: 20m | Width: 7m**

Shade tolerant indigenous conifer, endure cold and humid environments, no trimming required, 5 to 7 cm cones. A true "Christmas tree".

Royal raindrops Crabapple

**Height: 6m | Width: 4,5m**

Medium size deciduous with bright red flowers combined with purple foliage. Disease resistant.

Common Hackberry

**Height: 15m | Width: 8m**

Native and hardy deciduous, tolerate urban pollution, cracked and corky bark, scarce small fruits for birds and mammals.

American Elder

**Height: 3m | Width: 2m**

Bushy bearing and fast growing indigenous, edible fruits (jam, wine, drinks), black-purple color when ripe.

Eastern Larch

**Height: 20m | Width: 10m**

Conifer with deciduous foliage, native, pollution-resistant, yellow foliage in autumn, sensitive to urban pollution.
